"LearningExpress has tools for every skill set needed in the workplace. We've looked at many online tools but LearningExpress is the best. Their content is rich, the site is easy to use, and the students and teachers love it. It's a great value, with meaningful outcomes. LearningExpress resources help our students succeed at becoming the self-directed learners the VEI program promotes."

As the Learning Commons Coordinator, I field questions about study aids from students preparing for graduate school, students preparing for the Praxis® exam, nursing students, and more. While most of our study aids can only be used within the library, LearningExpress Library is available anywhere and our students love it. They also pass along the information to their younger siblings who need middle school and high school resources, including ACT® and SAT study guides.

LearningExpress Library is a fabulous resource, and continues to be valued at our university.
